

COX Filter Cloth - Filter Bag - Filter Fabric - Filter Cloth - P84 Filter Bag

P84 (Polyamide) filter bag(felt bags) provide a unique and cost effective solution for many tough industrial baghouse applications.

P84 (Polyamide) filter bags(felt bag) used in filter applications is principally in the form of needle felt fabric, suitable for use in pulse-jet type dust collectors. P84 fiber are needled into filtration quality felt to be sewn into filter bags suitable for use in pulse jet style baghouses.

P84(Polyamide) filter bag(felt bags) offer have the unique, open, trilobal structure can provides high filtration efficiency, low pressure change, and ease of cleaning.

There are three common weight we offer 400g, 450g and 500g for the pure P84 filter bags(felt bag).

P84(Polyamide) fiber needle with fiberglass can enhance the fiberglass advantage, we offer 800g, 850g and 900g P84 & fiberglass filter bags(felt bag).

Material		P84(Polyamide) Fiber / P84 Scrim
Basic Weight (g/m ²)		500
Thickness (mm)		2.3
Air permeability (m ³ /m ² *min)		15
Tensile Strength	Warp	700
	Weft	1200
Elongation (%)	Warp	<35
	Weft	<55
Burst Strength (Mpa/min)		2.5
Continues Working Temperature		260
