

COX Filter Cloth - Filter Bag - Filter Fabric - Filter Cloth - PP(Polypropylene) Filter Bag

**PP(polypropylene) filter fabric** is the basic filter media material to make polypropylene filter bags, quality inspection cutting, welding or seaming process. **PP(polypropylene) filter fabrics** are depth type filter material which can hook contaminants in different depths to perform the filtration requirements. The irregular fabric structure of the depth type filter media not only greatly diminish the filter bed effect but also captures soft and unsymmetrical contamination particles to improve filtration performance.

Material	Polypropylene (PP)	
Weight (g/m <sup>2</sup> )	500	
Thickness (mm)	2.0	
Air permeability (m <sup>3</sup> /m <sup>2</sup> /min)	>15	
Breaking strength (N/5*20cm)	warp	>1200
	weft	>1800
Elongation (%)	warp	50
	weft	45
Constant working temperature	90( )	
Instant working temperature	130( )	
Finishing treatment	Singed, calendering
